SOUTHERN PACIFIC RAILROAD .- At the neeting of the Chamber of Commerce yesterday, an able speech was made by Col. N. S. Goss, President of the Southern Branch of the Union Pacific Railroad, in which he clearly set forth the interest our people should have in the completion of this road. A memorial from the Chamber of Commerce to the Senate and House of Representatives was read, requesting that the Southern Branch of the Union Pacific railroad be as liberally endowed with subsidies and franchises as the Northern Branch. A resolution was adopted that our delegates at Washington be instructed, and that our Senators and Representatives to Congress, from the State, be requested to earnestly co operate at the coming session of Congress with the delegates of the Union Pacific Railway Southern Branch Company, with a view to secure the same aid granted to the Union Pacific Railroad Company and its northern branches, by an act of Congress approved on next Monday. SWINDLING A COUNTRY NEGRO. - A young man from the country, colored, by the name of Thompson, arrived in town yesterday and proceeded to invest his greenbacks in clothing at the store of L. Samelson, on Main street. While looking at a pair of pants, he observed Samelson handling several new coins, which shone so brightly that the darkey thought they were gold. He immediately proposed to buy them, offering a twenty supplied with the latest and most apdollar bill for the same, which was ac- proved patterns of type, borders and cepted. > DIRECT IMPORTATION .- Our merchants deserve praise for their energy in importng goods direct from Europe, and not paying the Eastern houses a profit on the same. G. H. Blood & Co. import many things direct from the manufacturers in England, and are thus able to compete with any firm in the country. Yesterday they received by the steamer Baltic one thousand boxes of sheet tin plates. This is the largest importation ever received at one time in this city. Country merchants and others will find it to their advantage to call at Blood & Co.'s extensive establishment, 361 Main street, where they can find anything in the hardware line they may need. Stoves of the most elegant and costly patterns, others combining cheapness and utility. Any taste or pocket can be supplied with tin, iron or copperware, lamps, etc., from the large stock there displayed for

> GREENLAW OPERA HOUSE - The Ice Witch and A Trip to Richmond were performed at this place of amusement, last evening. The excellent manner in which The Ice Witch was produced surprised the audience. The new scenery, painted by the young artist, E. Troll, being deservedly applauded. The acting of the Webb Sisters was all that could be desired by their most ardent friends. the sweet singing of Miss Ada, as usual, being received with decided marks of appreciation. Mrs. Tannehill, Messrs. Hill and Melville, were particularly happy in their respective parts. To-night The Ice Witch will be repeated for the last time, and those who go to see it will not regret it. The laughable farce of Rough Diamond will also be produced. To-morrow night the grand complimentary benefit to the Webb Sisters takes

NEW MEMPHIS THEATRE. - Clairvoyince; or, The Man with the Wax Fixtures was produced, for the third time, at the New Memphis last evening. It is an excellent drama, very interesting. The characters are cleverly sketched, belong to actual life, and give consideraopportunity for a display of fine acting. Mr. Adams' "Jean Vaubaron," like all his personations, was given in a correct. life-like manner. The "Mons. Rodille" of Mr. Wheelock was, undoubtedly, what the author intended it. Mrs. Lanagan, as "Martha Vaubaron," could not have done better; and, indeed, it seemed as if the entire company were vieing with the star, every character being rendered so truthfully. Claircoyance will be repeated again to night. All should see it.

COMMON LAW COURT.-Considerable business is transacted in this Court every day. Besides the final orders published, large numbers of interlocutory orders are taken, and altogether about fifty cases a day are disposed of. The following are the final orders yesterday : Choteau & Edwards vs. Martin & Co. \$2930 35; McPartland vs. Humphrey, \$1083 90: Union Bank of Tennessee vs. Jones et al, \$3873 24; Hitzfield vs. Stillman et al, \$431 75; Lehman & Co. vs. Page et al, \$677 57; Homes vs. Hughes, dismissed for want of prosecution; Campbell vs. Lothrop et al, submitted to arbitrators; Lynett vs. Shelton & Co., dismissed at plaintiff's cost.

To ADVERTISERS.-The proprietors of the Theatrical Bulletin take pleasure in informing the public that they will hereafter issue the Greenlaw Opera House Bulletin. Advertisements will be inserted in both sheets at the same rates heretofore charged for one. No other programme will be issued at the Theatre or Opera House, and the advantage accruing to advertisers by having their business laid before the audience at both places of amusement, is worthy of consideration. Orders left at the Public LEDGER office will be attended to

THE ORPHANS.—The annual fair for the benefit of the orphans will commence parents are to be provided for by the liberality of our citizens, who have heretofore contributed so generously for this good cause. The appeal of the ladies, in behalf the destitute little ones, will not be in vain, for those who have lost parents and relatives are regarded as a common inheritance, and everybody should contribute to their welfare.

OUR JOB OFFICE. -The PUBLIC LEDGER job printing department has been lately to accommodate the mercantile public. gnaranteed to give satisfaction. We have tomers inducements no others in this market can afford. Call and see.

METEORIC.-The grand meteoric display is supposed to have been postponed on account of the inclemency of the weather. About four o'clock this morning two or three stars were observed to fall, and many thought the big meteoric star exhibition was about to take place. We arose and took a favorable position, intending to give a graphic account in the columns of the Public Lapora this evening, and saw-nothing.

A RAPE CASE.-Mrs. Sharp, who resides near the Charleston depot, appeared before Esquire Creighton vesterday and had a warrant issued against a well known contracter for committing an assault with an intent to commit a rape. The affair transpired on Taesday evening at the home of the prosecutrix. The defendant denies the charge. The case will be tried on Saturday.

HORSE THIEVES .- These lovers of other people's quadrupeds are still quite active. Among many sufferers within the last few days were G. F. Farran, who resides eight miles from town on the Hernando road, losing two mules, and J. R. Allen, who lost three mules from his plantation three miles north of Hernando last night.

PICKPOCKETS AROUSD .-- Memphis has received an importation of pickpockets from the North. A gentleman at the Memphis and Ohio railroad depot thought so last night, when he missed his pocket book containing two hundred dollars. We hope they will soon be caught and sent to Brownlow's home.

Dr. Maggien's two grand specifies are putting an end to this wholesale system of medication. One of his famous pills is a dose. A box of his healing salve is of more value, as a remedy for ulcerous and eruptive diseases, than a ship's cargo of the cintments advertised to cure everything, but are all, in fact, either useless or deleterious,

Dr. Maggaru's motto is cos cantuaries. He has placed in the smallest compass the active principle of the most potent vegetable specifics. There is no mineral in his Pills-they do not gripe—they do not enfeeble. They create a vigorous appetite, and correspondinglystrengthen the digostion. They tune the liver, clear the head and steady the nerves.

No form of serofulous disease can resist the disenfectent operation of the Salve. Tumor Abscussos, Salt Rheum, Boils, Pimples, Pus tules, etc., are thoroughly eradicated by this unrivated medicine. Freedom from these contributes in no small degree to their happiness and welfare, for mone can be happy who are ill. Not only so, but no one of these various female complaints can long be suffered to run on without involving the general health of the individual, and ere long producing permanent sickness and premature decline. Nor is it pleasant to consult a physician for the relief of these various delicate adections, and only upon the most urgent necessity will a true woman so far sacrifice her greatest charm as to do this. The sex will then thank us for placing in their hands simple specifics which will be found effi-cacious in relieving and curing almost every one of those troublesome complaints peculiar to the sex. HELMBOLD'S EXT. OF BUCHU.

Hundreds suffer on in silence, and hundreds of others apply vainly to druggists and doctors, who either merely tantalize them with the hope of a sure or apply remedies which make them worse. I would not wish to assert anything that would do injustice to the afflicted, but I am obliged to say that although it may be produced from excessive exhauston of the powers of life, by laborious employment, unwholesome air and food, profuse menstruation, the use of tea and codice, and frequent childbirth, it is far oftener caused by direct irritation, applied to the mucaus membrane of the vagina itself.

When reviewing the causes of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them. It is but simple justice to the subject to enumerate a few of the many additional causes which so largely affect the life, health, and happiness of woman in all classes of society, and which consequently, affect, more or less directly, the welfares of the entire human family. The mania that exists for precocious education and marriage, causes the years that nature designed for corporeal development to be wasted and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the half room. Thus, with the body half clothed and the mind unduly excited by pleasure, pervertins in midnight revel the hours designed by nature for eleep and rest, the work of destruction is half accomplished. In consequence of this early strain upon her system, unnecessary effort is required by the Bibles, Hymn Books, Prayer Books A LL OF WHICH ARE OFFERED AT THE THE OLD RELIABLE

rest, the work of destruction is half accomplished.

In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to return her situation in school at a later day, thus aggravating the evil. When one excitement is over, another in prospective keeps the mind morbidly sensitive to impression while the now constant restraint of fashionable dress absolutely forbiding the exercise indiapensable to the attainment and retention of organic health and strength; the exposure to night air; the sudden change of temperature; the complete prostration produced by excessive daneing must, of necessity, produce their legitimate effect. At last, an early marriage cans the climax of misery, and the unfortunate one, hitherto so utterly regardless of the plain dictates and remonstrances of her delicate patiers, becomes an unwilling subject of medical treatment. This is but a truthful picture of the experience of thousands of our young women.

picture of the experience of thousands of our young women.

Long before the ability to exercise the functions of the generative organs, they require an education of their peculiar nervous system composed of what is called the tissue, which is, in common with the female breast and lips, evidently under the control of mental emotions and associations at an early p rice of life; and, as we shall subsequently see, these emotions, when excessive, lead, long before puberty, to habits which ap the very life of their victims ere nature has self-completed their development.
